TEMPEST ANNOUNCES THAT THE MANUFACTURER FORMERLY KNOWN AS VOLARE CARBURETORS LLC IS NOW MARVEL-SCHEBLER AIRCRAFT CARBURETORS LLC

GREENVILLE, SC --- We are pleased to announce the return of the Marvel-Schebler® name to its rightful and well-earned prominence for the manufacturing of aircraft carburetors and factory original replacement parts. Future manufacturing operations will be conducted under the company name Marvel-Schebler Aircraft Carburetors LLC while marketing efforts remaining under the TEMPEST® brand.

The venerable and trusted Marvel-Schebler® trademark has long been recognized as the premier design of aviation carburetors since the 1930's. Over many decades of continuous production, Marvel-Schebler® carburetors have been manufactured by a number of companies that operated under different names: Volare, Precision Airmotive, Facet, and Borg-Warner. Regardless, the products have always been known to the industry as Marvel-Schebler® carburetors. Marvel Schebler Aircraft Carburetors LLC continues with the implementation of modern manufacturing practices and engineered product improvements to ensure delivery of outstanding carbureted fuel controls.

TEMPEST® remains committed to providing the aviation industry with products of the highest quality and performance, best value with unmatched customer service. TEMPEST® is the leading brand for fuel, pneumatic, filtration, and ignition systems replacement parts. We are pleased to offer a complete line of OEM carburetors and fuel pumps, oil and pneumatic filtration products, ignition components including spark plugs, and specialty tools. The manufacturing facilities are located in Gibsonville, NC with sales and marketing offices located in Greenville, SC and Atlanta, GA.
